**Why am I receiving this?**

We like to share our knowledge. That's why we send this newsletter to all our customers and partners.

The newsletter is sent out four times per year.

Should you not want to hear from us, you can always unsubscribe. Just use the link in the bottom of this email.

Best regards,  
The KC ProSupply team

**The easy way to find leaks in piping systems**

KC ProSupply's leak detection spray LEAKFiNDER makes it easy to locate leaks in all kinds of piping systems. Spray LEAKFiNDER directly on the pipe connection, and be careful that the fluid completely covers the connection. If there is a leak, small bobbles will appear in the fluid. This way, you're always sure that your gas installation is tight.

**LEAKFiNDER facts**

- Tested by the Danish testing authority for gas equipment and found harmless to all approved gasket materials on the market
- Frost-proof down to -15 degrees C
- Non-flammable
- Will not damage plastic, rubber, varnish, textiles, etc.
- Tested by the Danish Technological Institute
- Approved for PE/PVC plastic pipes for gas, water, compressed air, CO2, oxygen and more
- Contains no solvents
