No. 07 - May 2017

The practical pipe choice

Gone are the days of having to check the corrosion levels and x-raying the welding on your underground steel pipes. Thermoflex LPG pipes eliminate all these drudgeries and pack an array of advantages to boot. And yes, they are available at your nearest KC ProSupply centre.

Did you know?

All products in KC ProSupply's selection are also compatible with Bio LPG.

Uniflex Crimping Machine

Uniflex's S2 crimping machine is the ideal machine for on-site repair of hydraulic hoses and is suitable for the crimping of the couplings of Thermoflex LPG pipes.

The manual Uniflex crimping machine can be rented at your KC ProSupply centre.
